INDEX TO VOLUME CXXX.

Abbott, A. C. Chemical, physical and bacteriological studies of air over decomposing surfaces, with especial reference to their application to the air of sewers, 569.

Abbott, S. W. National registration a necessity, 137; recent progress in public hygiene and preventive medicine, 337.

Abdominal Surgery. Cases of abdominal surgery occurring in the practice of Dr. J. Collins Warren at the Massachusetts General Hospital during the winter of 1893, Scudder, C. L., 1, 29.

Absinthe. The poisonous properties of absinthe and its congeners, 452.

Achorn, J. W. The effect of climate and environment on the New England girl, 58.

Acting Assistant-Surgeons, 226.

Alcohol. The rôle of alcohol in the causation of cirrhosis of the liver, 324.

Allen, G. W. Two cases of litholapaxy, 383, 388.

Allen, H. Morphology as a factor in the study of disease, 567.

American Gout, 273.

American Medical Association. Revision in the, 655; San Francisco meetings, 635, 657.

Anæsthesia. Mr. Lawson Tait's use of anæsthesia, 250.

Anarchist. Autopsy on the Greenwich anarchist, 326.

Anatomy. Recent progress in anatomy, Dwight, T., 7, 468; morphology as a factor in the study of disease, Allen, H., 567; Association of American Anatomists, 622; the range and the significance of variations in the human skeleton, Dwight, T., 625.

Aneurism. A new and distinguishing sign of latent aneurism of the aorta, Glasgow, W. C., 651.

Animal Experimentation, its influence on medical science, Loomis, A. L., 585; resolution before Congress of American Physicians and Surgeons, 590.

Appendicitis, with apparent resolution of abscess, relapse, death, autopsy, Peckham, F. E., 61; specimen of gangrenous and perforated appendix, Richardson, M. H., 67; infectious appendicitis, Morris, R. T., 133; recurrent appendicitis, August, A., 186; an appendix obliterated in the greater part of its length, Richardson, M. H., 192; cases of appendicitis presenting unusual features, Richardson, M. H., 232; twelve consecutive and successful operations for appendicitis, Keefe, J. W., 282, 306; a case of appendicitis, Folsom, C. F., 342; the after-treatment of operations for appendicitis, Burrell, H. L., 433, 444; specimen of appendix, Elliot, J. W., 444; some impressions derived from an experience of forty-four cases, Gage, H., 508.

Arm. Amputation of the entire upper extremity (including the scapula and clavicle) and of the arm at the shoulder-joint, Keen, W. W., 565.

Army. The duties of army medical officers, 49; the Army Medical School at Washington, 100; proposed reduction of the Army Medical Department, 294; proposed reduction of the Army Medical Corps, 351; the proposed reduction in the Army Medical Service, Parker, W. T., Dawbarn, R. H. M., 430; scaling the appropriation for the Library of the Surgeon-General's Office, 475; infantry footwear, 478; reduction of medical officers in the army, 590.

Arsenic. Chronic arsenical poisoning from wall-papers and fabrics, 246.

Asepsis. Obstetrical asepsis, Price, J., 32, 40.

Ashhurst, J., Jr. The surgical treatment of empyema, 564.

Asthma. Hypnotic suggestion in the cure of asthma, 350.

Athletic Sports, Eliot, C. W., 197.

August, A. Recurrent appendicitis, 186.

Babcock, R. H. A report of cases of chronic heart disease treated by the Schott method of baths and gymnastics, 651.

Bacteriology. The microbe of scarlatina, 73; bacteriological cultures from a case of puerperal septicæmia, Morse, J. L., 140, 142; a bacteriological study of four hundred cases of inflammation of the throat occurring in diphtheria and scarlet fever, with special reference to pathogenesis, Morse, J. L., 162, 182; the bacteria of peritonitis, 271; the bacteriology of nephritis, Sternberg, G. M., 573; sunshine and microbes, 603; Dr. S. C. Martin's researches on the bacteria of vaccinia, Ernst, H. C., 622; modification, temporary and permanent, of the physiological character of bacteria in mixed cultures, Smith, T., 647; the effect of various metals on the growth of pathogenic bacteria, Bolton, M., 647.

Bagdad. A sanitary sermon in diagram, Sundberg, J. C., 77.

Bates, E. A. A case of tuberculous pericarditis with enormous effusion; general tuberculosis; autopsy, 7.

Beck, C. Laminectomy for tubercular disease of the spine, 220.

Bell, R. E. A case of myxœdema, 364.

Beri-Beri, Daland, J., 652.

Bibliography. Adams, W., on contraction of the fingers and on "hammer toe," 122; Ashhurst, J., Jr., the principles and practice of surgery, 395; Baldy, J. M., an American text-book of gynecology, medical and surgical, 653; Bartholow, R., a practical treatise on materia medica and therapeutics, 194; Beard, G. M., a practical treatise on nervous exhaustion (neurasthenia), its symptoms, nature, sequence, treatment, 221; Berry, G. A., disease of the eye, 396; Boston Board of Health, twenty-second annual report, 602; Boxall, R., the use of antiseptics in midwifery, their value and practical application, 317; Bramwell, B., atlas of clinical medicine, 246; Brodie, C. G., dissections illustrated, a graphic hand-book for students of human anatomy, 345; Buck, A. H., supplement to the reference hand-book of the medical sciences, 293; Buxton, D. W., anæsthetics, their uses and administration, 221; Carmichael, J., disease in children, 169; Cathcart, C. W., descriptive catalogue of the anatomical and pathological specimens in the museum of the Royal College of Surgeons of Edinburgh, 71; Coplin, W. M. L., and Bevan, D., a manual of practical hygiene, 169; Corning, J. L., treatise on headache and neuralgia, including spinal irritation and a disquisition on normal and morbid sleep, 631; Crocker, H. R., diseases of the skin, 45; Donkin, H. B., diseases of childhood, 293; Dunglison, R., a dictionary of medical science, 71; Eccles, A. S., sciatica, a record of clinical observations on the causes, nature and treatment of sixty-eight cases, 71; Firebaugh, E. M., the physician's wife, and the things that pertain to her life, 369; Galton, D., healthy hospitals, observations on some points connected with hospital construction, 369; Gray, H., anatomy, descriptive and surgical, 19; Hart, E., hypnotism, mesmerism and the new witchcraft, 19; Hewitt, F. W., anæsthetics and their administration, 546; Hilton, John, rest and pain, 317; Holden's manual of the dissection of the human body, 369; hospitals, dispensaries and nursing, 394; Hyde, J. N., practical treatise on diseases of the skin, 631; Jackson, G. T., a practical treatise on diseases of the hair and scalp, 522; Jacobson, W. H. A., the diseases of the male organs of generation, 19; Jenner, W., lectures and essays on fevers and diphtheria, 1849 to 1879, 122; Johns Hopkins Hospital reports, report in gynecology, ii, 546; Jules, H. E., a hand-book of ophthalmic sciences and practice, 522; Keen, W. W., operation blanks, 346; Kirchhoff, T., hand-book of insanity, 293; Landis, H. G., how to use the forceps, 346; Macready, J. F. C. H., treatise on ruptures, 575; Madden, T. M., clinical gynecology, 71; Massachusetts State Board of Lunacy and Charity, report for 1893, 72; Manley, T. H., hernia, its palliative and radical treatment in adults, children and infants, 473; Marinesanitätsordnung, 473; Martin, E., essentials of minor surgery, bandaging and venereal diseases, 122; Mathews, J. M., a treatise on diseases of the rectum, anus and sigmoid flexures, 321; Musser, J. H., a practical treatise on medical diagnosis, 396; Norris, R. C., syllabus of the obstetrical lectures in the medical department of the University of Pennsylvania, 420; Parkes, L. C., infectious diseases, notification and prevention, 396; Pepper, W., a text-book of the theory and practice of medicine, 369; physician's visiting list for 1894, 71; Pye-Smith, P. H., an introduction to the study of diseases of the skin, 20; Schenk, S. L., manual of bacteriology, 44; Senn, A., a syllabus of lectures on the practice of surgery, 71; Surgeon-General's Office, U. S. A., index catalogue, vol. xiv, 223; Stearns, H. P., lectures on mental diseases, 317; Stillé, A., and Maisch, J. M., the national dispensatory, 345; Tebb, W., the recrudescence of leprosy and its causation, 20; Thompson, H., introduction to the catalogue of the collection of calculi of the bladder, 191; Tuke, D. H., reform in the treatment of the insane; early history of the Retreat, York; its object and influence, with a report of the celebration of its centenary, 19; Von Krafft-Ebing, R., psycopathia-sexualis, with especial reference to contrary sexual instinct, a medico-legal study, 19; Webster, D., eye-strain a cause of headache, 631; Wharton, H. R., minor surgery and bandaging, 653; Whittaker, J. V., the theory and practice of medicine, 293; Wimmer, S. J., Wimmer's table and notes on human osteology, 420; Witthaus, R. A., the medical student's manual of chemistry, 20; a laboratory guide in urinalysis and toxicology, 473; Witthaus, R. A., and Becker, T. C., medical jurisprudence, forensic medicine and toxicology, 395; year-book of treatment for 1894, 473; Zola, Lourdes, 654.

Bicycle. The pathology of bicycling, 197.

Billings, J. S. Methods of teaching surgery, 535.

Biography. Arnold, J., 480; Billings, L. F., 52; Billroth, T., 176; Briggs, C. E., 660, Brown-Séquard, 352, 370; Chrenow, 23; Codman, B. S., 228; Conway, W. A., 424; Crary, D., 432; Cresson, C. M., 28;

Cunningham, W. F., 636; Dagna, G., 300; Day, A., 456; Donovan, 200, 226, 251; Elder, E. S., 636; Fogg, W. J. G., 251, 252; Ford, C. C., 404; Forsaith, F. F., 276; Garcia, V. A., 276; Grierson, G. T., 128; Guttmann, S., 28; Hartnett, M. K., 528; Hassall, A. H., 456; Hill, H. E., 52; Hilson, A. H., 300; Hirsch, A., 200; Holmes, H., 149; Hutchinson, William F., 198; Jacob, Ernest H., 328; James, Charles, 549; Keating, W. V., 432; Kundt, A., 636; Lheritier, S. D., 404; Lucke, A., 276; Marston, D. E., 404; Metcalf, T., 455, 456; Michel, M., 636; Nava, J. G., 104; Ollivier, A., 328; Parrish, J., 252; Patterson, J. H., 456; Pike, C. C., 128, 527; Radsiminski, 23; Rauch, J. H., 328; Romanes, G. J., 552; Rubio, F. A., 200; Scheuthauer, G., 228; Seaverns, J., 252, 327; Smith, C. G., 80; Stanard, A. C., 502; Sperk, 636; Van Beneden, P. J., 52; Walker, J. E., 636; Weld, F. M., 52; Willard, O. A., 52; Workman, J. H., 404.

Blake, J. G. Review of a summer's work in gynæcology at the Boston City Hospital, 89, 97.

Blank for obstetric cases, Green, C. M., 98.

Blood. The therapeutic action of blood-serum, 45; on the value of the examination of the blood in the insane, Houston, J. A., 53.

Boardman, W. S. The treatment of pulmonary tuberculosis by the subcutaneous use of the chloride of gold and sodium with the iodide of manganese, 492.

Bolton, M. The effect of various metals on the growth of pathogenic bacteria, 647.

Bone. A case of myositis ossificans with multiple exostoses, Gibney, V. P., 43.

Booth, J. A. A case of exophthalmic goitre; thyroidectomy, 391; a case of hysteria with peculiar epileptoid attacks, 393.

Bosworth, F. H. Diseased conditions of the ethmoidal sinuses, 590.

Bowen, J. T. The prevalence and recognition of scabies, 127; report on dermatology, 241, 263.

Brackett, E. G. Exercise in the treatment of lateral curvature, 329, 343.

Bradford, E. H. Flat-foot, 377, 388.

Bradford, E. H., and Brackett, E. G. Recent progress in orthopedic surgery, 9, 38.

Brain. Venous tumor of the diploë, Pilcher, L. S., 599.

Brandt Method of pelvic massage, 474.

Breast. Large, diffuse fibroma of the breast, with spot of medullary carcinoma, Richardson, M. H., 143; fibroma of the breast, with large cyst simulating carcinoma, Richardson, M. H., 193; the change of a malignant tumor into a scirrhous cancer in the breast, Cabot, A. T., 442; tumors of the breast, Warren, J. C., 643.

Brown, C. H. A case of amyotrophic lateral sclerosis, 496.

Brown-Sequard's teachings, 370.

Bryan, J. H. Surgery of the maxillary sinus, 590.

Bryant, T. The necessity of a well-paid medical profession, 374.

Burrage, W. L. Three years' experience with electrical treatment of fibroid tumors of the uterus, with a report of forty-four cases, 289.

Burrell, H. L. The after-treatment of operations for appendicitis, 435, 444.

Burrell, H. L., and Cushing, H. W. Recent progress in surgery, 384, 415.

Butler, G. R. The methods and value of supervised exercise in the prophylaxis of pulmonary phthisis, 630.

Cabot, A. T. The change of a malignant tumor into a scirrhous cancer in the breast, 442.

Cabot, Richard C. The diagnostic and prognostic importance of leucocytosis, 277, 292.

Call, A. P. Relaxation as a curative agent, 334.

Cancer. The discussion on the parasitism of cancer at the Eleventh International Congress of Medical Sciences, 398; the change of a malignant tumor into a scirrhous cancer of the breast, Cabot, A. T., 442.

Capital Punishment. Proposed legislation concerning capital punishment in Ohio, 146.

Carmalt, W. H. Extirpation of the larynx, 600.

Carriages. The conveyance of scarlet fever and diphtheria by public carriages, 576.

Carshaw, J. The use of antipyretic methods in the treatment of scarlet fever, 373.

Cash. Pharmacy, Therapeutics and Credulity, 50.

Chadbourne, A. P. The gastric and respiratory symptoms caused by the dust of curled hair, 439, 450.

Chandler, N. F. Report of two pregnancies following a laparotomy, 93, 98.

Chaplin, W. S. St. Louis and its medical schools, 634.

Charles River in its relation to the etiology of intermittent fever, Greenleaf, R. W., 353, 357.

Charteris. The treatment of sea-sickness, 454.

Cheever, D. W. Lectures on surgery, 81, 129.

Chiene, J. The teaching of surgery, 595.

Children. The study of pediatrics, Christopher, W. S., 174; feeble-minded children, 222; cases of acute pneumonia in children, Morrill, F. G., 541.

China. Self-mutilation in China, 76; the plague in China, 631.

Chloroform. Sir James Simpson's early experiments with chloroform, 103.

Cholecystotomy. Five cases of cholecystotomy, Perkins, J. W., 87.

Cholera, 102; anti-choleraic inoculation, 198; Haffkine's method of inoculation against cholera, 523.

Christopher, W. S. The study of pediatrics, 174.

Circulatory System. A case of tuberculous pericarditis with enormous effusion, general tuberculosis, autopsy, Bates, E. A., 7; a review of ninety-two cases of disease of the heart observed in the out-patient department of the Boston City Hospital, Jackson, H., 111; a case of malignant endocarditis, Fay, W. E., 189; cases of fatal hæmorrhage from the left lateral sinus caused by a blow on the jaw, 201; ligation of both common carotid arteries, Gay, G. W., 244; the treatment of pregnancy complicated by heart disease, Sears, G. G., 253, 268; the diagnostic and prognostic importance of leucocytosis, Cabot, R. C., 277, 292; recent progress in thoracic disease, Sears, G. G., 285; perforation of the heart, with continuance of life for thirteen hours, Thompson, 350; three cases of occlusion of the superior mesenteric artery, Councilman, W. T., 410; idiopathic hypertrophy of the heart, 421; perforating wound of the heart, Hall, R. M., 431; peritonitis due to embolism of the mesenteric artery, Councilman, W. T., 443; arterio-sclerosis and arteritis, modern views as to etiology, 547; the obscure origin and indeterminate course of acute infection, as illustrated by a case of malignant endocarditis, Greene, J. S., 557, 563; a new and distinguishing sign of latent aneurism of the aorta, Glasgow, W. C., 651; some pathological conditions of the heart and their relation to diabetic coma, Weber, L., 650; a report of cases of chronic heart disease treated by the Schott method of baths and gymnastics, Babcock, R. H., 651.

Clark, A. Work as a therapeutic agent, 50; occupation, 175; Mr. Gladstone's tribute to Sir Andrew Clark and the medical profession, 579.

Clendenin, P. The open incision in uncomplicated cases of hydrocele, 440.

Codman, C. R. The Massachusetts Homœopathic Medical Society luncheon, 403.

Coley, W. B. The treatment of inoperative malignant tumors by the toxines of erysipelas and prodigiosus, 598.

Colorado. Some meteorological data of Colorado, Fisk, S. A., 652.

Contagious diseases in the public schools, 23.

Corning, J. L. Deafness due to a foot-ball injury, 120.

Coroner. To abolish the office of coroner in New York, 102.

Councilman, W. T. A case of multiple rupture of internal organs produced by a fall, 109; three cases of occlusion of the superior mesenteric artery, 410; peritonitis due to embolism of the mesenteric artery, 443; specimen of intestinal obstruction, 470.

Courtney, J. W. Modern realism and Zolaism in Spanish literature, 79.

Cowles, W. N. A case of myxœdema treated by thyroid extract, 167, 168.

Cremation in Paris, 148.

Crime. Surgical treatment of crime, 171.

Crompton, D. Operative surgery under difficulties, 605.

Crotalus horridus, 375.

Crowell, S. A case of acute affection simulating acute yellow atrophy of the liver in a pregnant woman, autopsy, 166, 169.

Curtin, R. G. Creasote, guaiacol and benzoyl in phthisis, 630.

Cushing, E. W. A case of uterine tumor, 37, 42; the operative treatment of uterine fibroids, 301, 315.

Cutaneous System. The prevalence and recognition of scabies, Bowen, J. T., 127; report on dermatology, Bowen, J. T., 241; the treatment of chronic ringworm of the scalp, Fox, C., 373.

Daland, J. Beri-beri, 652.

Dana, C. L. Syringo myelia, central glioma of the spinal cord with spontaneous central hæmorrhage, 119.

Dandridge, N. P. Surgical treatment of pulmonary cavities, 402.

Davenport, F. H. Report of progress in gynæcology, 364; the non-surgical treatment of chronic pelvic inflammations and their sequelæ, 407, 420.

Davis, S. H. The first epidemic of measles in Samoa, 605.

Dawbarn, R. H. M. The proposed reduction in the Army Medical Service, 431.

Day, F. L. Twenty-six cases of intubation of the larynx, 356.

Delavan, D. B. Address before American Laryngological Society, 556.

Dercum, F. X. The therapeutics of infectious processes of the nervous system, 594.

Dermatology. Report on dermatology, Bowen, J. T., 241, 263; the dermatology of to-day, Morris, M., 298.

Diabetes. Pathology of diabetes mellitus, Joslin, E. P., 309, 330; some pathological conditions of the heart and their relation to diabetic coma, Weber, L., 650.

Digestive System. A bloodless operation for hæmorrhoids, Manley, T. H., 114; infectious appendicitis, Morris, R. T., 133; malignant disease of the rectum, Gay, G. W., 204, 214; the bacteria of peritonitis, 271; intestinal anastomosis (with Senn's plates) for cancerous obstruction, Elliot, J. W., 285; the gastric and respiratory symptoms caused by the dust of curled hair, Chadbourne, A. P., 439, 450; digestive paresis, Whittier, E. N., 460, 470; specimen of intestinal obstruction, Councilman, W. T., 470; a case of amœbic dysentery, Withington, C. F., 516, 522; strangulation of Meckel's diverticulum caused by volvulus of the ileum, Elliot, J. W., 586; suicidal gunshot wound of the abdomen, fæcal fistula, complete recovery without operation, Egan, P. R., 587.

Diphtheria. Blood-pressure in diphtheria, Friedemann, 26; remarks on diphtheria, 107, 115; diphtheritic paralysis, 123; treatment of diphtheria by frequent small doses of biniodide of mercury, 474; primary nasal diphtheria, Townsend, C. W., 513, 520; the conveyance of scarlet fever and diphtheria by public carriages, 576.

Dispensary, the first, 656.

Dissection in the public schools, 172.

Draper, F. W. A rare form of the hymen, 142; recent progress in legal medicine, 313.

Drunkenness in wasps, 49.

Dunbar, F. A. Impure ice, 261.

Durell, T. M. The Leach case, 382, 390.

Dwight, T. Recent progress in anatomy, 468; the range and the significance of variations in the human skeleton, 625.

Ear. Deafness due to a foot-ball injury, Corning, J. L., 120.

Eastman, J. Suprapubic hysterectomy, 553.

Edes, R. T. Ovariotomy for nervous disease, 105.

Editorials. Vaccination and re-vaccination, 21; nail-biting, 22; contagious diseases in public schools, 23; the therapeutic action of blood-serum, 45; report of the Massachusetts State Board of Lunacy and Charity, 72; the microbe of scarlatina, 73; avoidable results and essential precautions in vaccination, 99; the Army Medical School at Washington, 100; diphtheritic paralysis, 123; the action of permanganate of potash in rendering morphia inert, 124; the contagium vivum of vaccine and of small-pox, 145; proposed legislation concerning capital punishment in Ohio, 146; sanitary insurance, a scheme, 170; surgical treatment of crime, 171; dissection in the public schools, 172; diseases due to "hard times," 194; the supervision of the insane in New York, 195; feeble-minded children, 222; the Index Catalogue of the Library of the Surgeon-General's Office, U. S. A., vol. xiv, 223; chronic arsenical poisoning from wall-papers and fabrics, 246; a new bill for the establishment of a national bureau of health, 247; ectopic gestation, 270; the bacteria of peritonitis, 270; proposed reduction of the Army

Medical Department, 294; recent investigations of the British Government upon the influence of certain trades or occupations upon health, 294; the registration of and preventive measures against tuberculosis, 322; the rôle of alcohol in the causation of cirrhosis of the liver, 324; anti-vaccination, 346; the unfavorable sequelæ of certain radical operations on the gall-bladder, 347; Brown-Sequard's teachings, 370; the International Medical Congress, 371; the doctor in fiction, 397; the discussion on the parasitism of cancer at the Eleventh International Congress of Medical Sciences, 398; vital statistics of England for 1893, 399; idiopathic hypertrophy of the heart, 421; the Eleventh International Medical Congress, 422; unemployed medical men, 451; the poisonous properties of absinthe and its congeners, 452; the Brandt method of pelvic massage, 474; treatment of diphtheria by frequent small doses of biniodide of mercury, 474; scaling the appropriation for the library of the Surgeon-General's Office, 475; heart-failure, 499; the rôle of the nose in Zola, 500; Haffkine's method of inoculation against cholera, 523; railway spines and surgeons, 523; compulsory vaccination, 524; arterio-sclerosis and arteritis, modern views as to etiology, 547; annual report of the Massachusetts General Hospital, 548; Third Triennial Congress of American Physicians and Surgeons, 575; the conveyance of scarlet fever and diphtheria by public carriages, 576; recent sanitary improvements in Hamburg, 577; the Twenty-second Annual Report of the Boston Board of Health, 602; sunshine and microbes, 603; the plague in China, 631; Zola and Lourdes, 654; revision in the American Medical Association, 655.

Education. Another four years' course, 27; "Higher medical education," Ingalls, E. F., 51; the Army Medical School at Washington, 100; four years' course at Rush Medical College, Ingalls, E. F., 103; methods of teaching surgery, Billings, J. S., 535; St. Louis and its medical schools, Chaplin, W. S., 634.

Egan, P. R. Suicidal gunshot wound of the abdomen, fæcal fistula, complete recovery without operation, 587.

Elbow. Excision of the elbow-joint, Richardson, M. H., 143.

Electricity. Electrical reactions and their value in diagnosis and prognosis, Starr, M. A., 317, 393.

Eliot, C. N. On the regulation of athletic sports, 197.

Elliott, J. W. Cases of extra-uterine pregnancy with operations, 260; intestinal anastomoses (with Senn's plates) for cancerous destruction, 285; specimen of appendix, 444; strangulation of Meckel's diverticulum caused by volvulus of the ileum, 586.

Empyema. The surgical treatment of empyema, Ashhurst, J., Jr., 564.

Endocarditis. A case of malignant endocarditis, Fay, W. E., 189.

Ernst, H. C. Dr. S. C. Martin's researches on the bacteria of vaccinia, 622.

Ethmoidal Sinuses, diseased conditions of, Bosworth, F. H., 590.

Everett, O. H. A case of pulmonary stenosis in an adult, 207.

Ewing, C. The action of rattlesnake venom upon the bactericidal power of the blood-serum, 487.

Ewing, J. Address before American Surgical Association, 564.

Exercise in the treatment of lateral curvature, Brackett, E. G., 329, 343.

Extra-uterine pregnancy, right-sided, followed at an interval of two years by left-sided Fallopian pregnancy, with repeated operation, Harrington, F. B., 6; six cases of extra-uterine pregnancy, Johnson, F. W., 256, 265; cases of extra-uterine pregnancy, Elliot, J. W., 260; ectopic gestation, 270.

Eye. Removal of foreign body from the anterior chamber of the eye, 142; two cases of chancre of the eyelid, with an account of the manner of infection, Standish, M., 237, 244; thrombosis of the central artery of the retina with unusual features, Jack, E. E , 312.

Farlow, J. W. Hypertrophy in the post-nasal space, especially after childhood, 56, 65.

Fay, W. E. A case of malignant endocarditis, 189.

Feeble-minded children, 222.

Fenger, C. Surgery of the ureters, 596.

Fischer, W. The new rational way to sleep, 126.

Fisher, E. D. Anomalous cases of general paresis, 15.

Fisk, S. A. A treatment of typhoid fever, 620; some meteorological data of Colorado, 652.

Fitchburg. The sewerage system in Fitchburg, 425.

Fitz, R. H. The rise and fall of the licensed physician in Massachusetts, 1781–1860, 529; the legislative control of medical practice, 581, 609, 637.

Flat-Foot, Bradford, E. H., 377.

Folsom, C. F. A case of appendicitis, 342; cases of traumatic headache, 621, 641.

Foot. A case of club-hand and club-foot, Sayre, R. H., 42; the treatment of club-foot by Wolff's method, Shands, A. B., 43.

Foot-ball *vs.* insurance, Wells, G. W. 76; deafness due to a foot-ball injury, Corning, J. L., 120.

Forbes, W. S. The removal of stone in the bladder, with the presentation of a new lithotrite, 600.

Fox, C. The treatment of chronic ringworm of the scalp, 373.

Fractures. Compound fractures, Mumford, J. G., 463, 471; mooted points as to fracture of the arm, with notice of an improved splint, Gaston, J. McF., 599.

Francis, G. E. Three uterine pregnancies during an extra-uterine pregnancy, 199.

Frank. Tapping of the lateral ventricles, 401.

Friedemann. Blood-pressure in diphtheria, 26.

Gage, H. Appendicitis; some impressions derived from an experience of forty-four cases, 508.

Gall-bladder. The unfavorable sequelæ of certain radical operations on the gall-bladder, 347.

Gaston, J. McF. Mooted points as to fractures of the arm, with notice of an improved splint, 599.

Gavin, M. F. The radical cure of hydrocele, 210, 213.

Gay, G. W. Malignant disease of the rectum, 204, 214; ligation of both common carotid arteries, 244; letter from Rome, 428; the Medical Registration Bill, 551.

Generative System. A case of uterine tumor, Cushing, E. W., 37, 42; the immediate causation of the diseases peculiar to women, Thomas, T. G., 68; review of a summer's work in gynæcology at the Boston City Hospital, Blake, J. G., 89, 97; ovariotomy for nervous disease, Edes, R. T., 105; a rare form of the hymen, Draper, F. W. 142; three cases of salpingitis of unusual extent, Richardson, M. H., 159, 169; the radical cure of hydrocele, Gavin, M. F., 40, 213; three years' experience with electrical treatment of fibroid tumors of the uterus, with a report of forty-four cases, Burrage, W. L., 289; the operative treatment of uterine fibroids, Cushing, E. W., 301, 315; imperforate hymen with hæmatocolpos, Green, C. M., 358, 367; mucous cysts of the vagina, Green, C. M., 358; recto-vulvar fistula, Green, C. M., 358; report of progress in gynæcology, Davenport, F. H., 364; observations in cases of fibroid tumor of the womb, Minot, F., 405, 419; the non-surgical treatment of chronic pelvic inflammations and their sequelæ, Davenport, F. H., 407, 420; the open incision in uncomplicated cases of hydrocele, Clendenin, P., 440; stricture of the urethra, with specimen, Richardson, M. H., 443; the Brandt method of pelvic massage, 474; suprapubic hysterectomy, Eastman, J., 553; the conservative surgery of the female pelvic organs, Polk, W. M., 573; the conservative treatment of the female pelvic organs, 574; pelvic inflammations, Wheeler, L., 615.

Gibney, V. P. A case of myositis ossificans, with multiple exostoses, 43; the Lorenz treatment of hip disease, 219; excision of the hip, 219.

Gilbert, D. D. The production of vaccine virus, 434, 444.

Girl. The effect of climate and environment on the New England girl, Achorn, J. W., 58.

Gladstone. Mr. Gladstone's tribute to Sir Andrew Clark and the medical profession, 579.

Glasgow, W. C. A new and distinguishing sign of latent aneurism of the aorta, 651.

Goodell, W. The conservative treatment of the female pelvic organs, 574.

Goss, F. W. Two cases of pulmonary congestion and œdema occurring during pregnancy, 336, 341.

Gout. American gout, 273.

Grant, J. H. Toxic effects after use of oil male fern (ethereal) for tapeworm, 337.

Green, C. M. Obstetric case-blank, 98; four unusual cases; imperforate hymen with hæmatocolpos, mucous cysts of the vagina, recto-vulvar fistula, salivation of pregnancy, 358, 367.

Greene, E. W Crystalline deposits in the urine, their causation and relation to renal diseases, 538, 560, 564.

Greenhalge. Inaugural address, 49.

Greenleaf, R. W. The Charles River in its relation to the etiology of intermittent fever, 353, 367.

Gynæcology. Report of progress in gynæcology, Davenport, F. H., 364.

Haffkine's method of inoculation against cholera, 523.

Hair. The gastric and respiratory symptoms caused by the dust of curled hair, Chadbourne, A. P., 439, 450.

Hall, J. N. "Sending patients away from home," 27; weight as a symptom in phthisis, 607.

Hall, R. M. Perforating wound of the heart, 431.

Hamburg. Recent sanitary improvements in Hamburg, 577.

Hand. A case of club-hand and club-foot, Sayre, R. H., 42.

Hard Times. Diseases due to hard times, 194.

Harrington, F. B. Right-sided, followed at an interval of two years by left-sided Fallopian pregnancy, with repeated operation, 6.

Harrington, M. W. Sensible temperatures, 652.

Haven, G. A case of puerperal septicæmia, 140, 142.

Hay, G. Removal of foreign body from the anterior chamber of the eye, 142.

Hayes, M. C. The vermiform appendix, 175.

Heart-failure, 499.

Henry, F. P. A clinical report of two cases of Raynaud's disease, 621.

Herter, C. A. A critical review of the various theories of uræmia, based upon original experimental observations, 497.

Hibberd, J. F. Annual address before the American Medical Association, 623.

"Higher medical education," Ingalls, E. F., 51.

Hinsdale, G. The comparative rarity of phthisis in the highlands of Pennsylvania and the adjacent counties of New York, 651.

Hindu system of medicine and the secret of success in practice, 427.

Hip. The Lorenz treatment of hip disease, Gibney, V. P., 219; excision of the hip, Gibney, V. P., 219.

Hogner, R. Treatment of small-pox by non-admittance of the chemical rays of light, 35; on spermatorrhœa and incipient hypertrophy of the prostate and a proposed method for its treatment, 239.

Houston, J. A. On the value of examination of the blood of the insane, 53.

Hughes, C. H. The nervous system in disease and the practice of medicine from a neurological standpoint, 624.

Hyde, J. N. The distribution of leprosy in North America, 571.

Hydramnion. Two cases of hydramnion associated with abdominal distention in the fœtus, Townsend, C. W., 139, 142.

Hydrocele. The radical cure of hydrocele, Gavin, M. F., 210, 213; the open incision in uncomplicated cases of hydrocele, Clendenin, P., 440.

Hygiene, Health and Boards of Health. Report of the Massachusetts State Board of Lunacy and Charity, 72; a sanitary sermon in diagram, Sundberg, J. C., 77; sanitary hygiene, a scheme, 179; a new bill for the establishment of a national bureau of health, 247; recent investigations of the British Government upon the influence of certain trades or occupations upon health, 294; recent progress in public hygiene and preventive medicine, Abbott, S. W., 337; the Charles River in its relation to the etiology of intermittent fever, Greenleaf, R. W., 353, 367; the sewage system in Fitchburg, 425; chemical, physical and bacteriological studies of air over decomposing surfaces, with especial reference to their application to the air of sewers, Abbott, A. C., 569; the effect of sewer-gas in the production of disease, Jacobi, A., 570; sewer-gas as a cause of throat disease, or the effect of bad drainage on the throat, Robinson, B., 570; recent sanitary improvements in Hamburg, 577; retrogressive legislation in regard to Massachusetts boards of health, 578; annual report of the Boston Board of Health, 602.

Hymen. A rare form of the hymen, Draper, F. W., 142.
Hypnotism. Hypnotic suggestion in the cure of asthma, 350.
Ichthyol. A note on the use of ichthyol, Sinclair, 140, 141.
Immigrants. The foreign quarantine of immigrants, 327.
Infectious Diseases. A classification for infectious diseases, Thomson, W. H., 551.
Ingalls, E. F. "Higher medical education," 51; four years' course at Rush Medical College, 103.
Insane. The supervision of the insane in New York, 195.
Insurance. Foot-ball *vs.* insurance, Wells, G. W., 76; sanitary insurance, a scheme, 170.
Intermittent Fever. The Charles River in its relation to the etiology of intermittent fever, Greenleaf, R. W., 353, 367.
Jack, E. E. Thrombosis of the central artery of the retina with unusual features, 312.
Jackson, H. A review of ninety-two cases of diseases of the heart observed in the out-patient department of the Boston City Hospital, 111.
Jacobi, A. The effect of sewer-gas in the production of disease, 570.
Jacoby, G. W. A case of progressive muscular atrophy of the perineal type, 392.
Japanese girls in boxes, 656.
Johnson, A. B. A case of neuralgia of the great occipital nerve, with symptoms of a destructive lesion of the cervical sympathetic, 392.
Johnson, F. W. Six cases of extra-uterine pregnancy, 256, 265.
Joslin, E. P. Pathology of diabetes mellitus, 309, 330; clinical note-taking, with a list of four hundred and ninety-nine medical cases shown to the third class of the Harvard Medical School, 415.
Keefe, J. W. Twelve consecutive and successful operations for appendicitis, 282, 306.
Keen, W. W. The pleasures and pains of a physician's life, 126; amputation of the entire upper extremity (including the scapula and clavicle) and of the arm at the shoulder-joint, 565.
Kenyon, C. G. Annual address before the Medical Society of the State of California, 481.
Keyes, E. L. Nephritis in its surgical aspects, 572.
Knapp, P. C. Report on diseases of the nervous system, 62, 94.
Knight, F. G. Shall anything be done by legal authority to prevent the spread of tuberculosis? 630.
Lane, L. C. A reminiscence of the Nicaraguan filibusters, 50.
Larynx. Twenty-six cases of intubation of the larynx, Day, F. L., 356; address before American Laryngological Society, Delavan, D. B., 556; extirpation of the larynx, Carmalt, W. H., 600.
Leach case, 382, 390.
Legal Medicine. Recent progress in legal medicine, Draper, F. W., 313.
Legislation. Proposed legislation for the better protection of the community against quackery, 478; "The Medical Registration Bill in the Massachusetts Legislature," 527; the rise and fall of the licensed physician in Massachusetts, Fitz, R. H., 529; the Medical Registration Bill, Gay, G. W., 551; retrogressive legislation in regard to Massachusetts boards of health, 578; the legislative control of medical practice, Fitz, R. H., 581, 609, 637.
Leprosy. The distribution of leprosy in North America, Hyde, J. N., 571; the contagiousness, prophylaxis and control of leprosy, White, J. C., 571; resolution before the Congress of American Physicians and Surgeons, 589.
Leucocytosis. The diagnostic and prognostic importance of leucocytosis, Cabot, R. C., 277, 292.
Litholapaxy. Two cases of litholapaxy, Allen, G. W., 383, 388.
Litholiptrist, 59.
Liver. The rôle of alcohol in the causation of cirrhosis of the liver, 324.
Longevity. External indications of inherited longevity, 126.
Loomis, A. L. The influence of animal experimentation on medical science, 585.
Lorenz treatment of hip-disease, Gibney, V. P., 219.
Male Fern. Toxic effects after use of oil male fern (ethereal) for tapeworm, Grant, J. H., 337.
Malignant Tumors. The treatment of inoperative malignant tumors by the toxines of erysipelas and prodigiosus, Coley, W. B., 598.
Mallory, F. B. Letter from Prague, 77.
Manley, T. H. A bloodless operation for hæmorrhoids, 114.
Martin, F. C. The production of vaccine virus, 479.
Mason, A. L. Second attacks of typhoid fever in adults, two cases, 180.
Massachusetts. A bill to provide for the registration of physicians and surgeons in the State of Massachusetts, 426.
Materia Medica and Therapeutics. Changes in the Pharmacopœia, 25; pharmacy, therapeutics and credulity, Cash, 50; the action of permanganate of potash in rendering morphia inert, 124; a note on the use of ichthyol, Sinclair, A. D., 140, 141; remarks on the therapeutic use of sheep's thyroids and of other organic extracts, Putnam, J. J., 153, 168; relaxation as a curative agent, Call, A. P., 331; toxic effects after use of oil male fern (ethereal) for tapeworm, Grant, J. H., 337; saturated solution of potassium permanganate in the treatment of chronic ulcer, Waughop, P. R., 467; treatment of diphtheria by frequent small doses of biniodide of mercury, 474; the effect of ether and chloroform on the kidneys, Wunderlich, 477; the treatment of tuberculosis by the subcutaneous use of the chloride of gold and sodium with the iodide of manganese, Boardman, W. S., 492; the over-zealous therapeutician, Stokvis, 526; report on therapeutics, Williams, F. H., 543.
Maxillary Sinus, surgery of the, Bryan, J. H., 590.
McCollom, J. H. Remarks on diphtheria, 107, 115.
Measles. Measles and theology, 427; the first epidemic in Samoa, Davis, S. H., 605.
"Mental Cure." What "mental cure" is, Whipple, L. K., 148.
Millard, P. H. Another four years' course, 27.
Mills, C. K. Relation of infectious processes to mental disease, 592.
Mind. On the value of examination of the blood in the insane, Houston, J. A., 53; report of the Massachusetts State Board of Lunacy and Charity, 72; what "mental cure" is, Whipple, L. K., 148; the supervision of the insane in New York, 195; report on mental diseases, Stedman, H. R., 494, 517; relation of infectious processes to mental disease, Mills, C. K., 592.
Minot, F. Observations on cases of fibroid tumor of the womb, 405, 419.
Morphia. The action of permanganate of potash in rendering morphia inert, 124.
Morphology as a factor in the study of disease, Allen, H., 567.
Morrill, F. G. Cases of acute pneumonia in children, 541.
Morris, M. The dermatology of to-day, 298.
Morris, R. T. Infectious appendicitis, 133.
Morse, J. L. Bacteriological cultures from a case of puerperal septicæmia, 140, 142; a bacteriological study of four hundred cases of inflammation of the throat occurring in diphtheria and scarlet fever, with especial reference to pathogenesis, 162, 182.
Mumford, J. G. Compound fractures, 463, 471.
Muniz collection of skulls, 402.
Myxœdema. A case of myxœdema treated by thyroid extract, Cowles, W. N., 167; four cases of myxœdema treated by thyroid extract, Shattuck, F. C., 177, 191; a case of myxœdema, Putnam, J. J., 190; a case of myxœdema, Bell, R. E., 364.
Nails. Nail-biting, 22.
Negro. The solution of the negro rape problem, 126.
Nephritis in its surgical aspects, Keyes, E. L., 572; the bacteriology of nephritis, Sternberg, G. M., 573.
Nervous System. Anomalous cases of general paresis, Fisher, E. D., 15; discussion on the relation of syphilis to general paresis, Peterson, F., and others, 15; report on diseases of the nervous system, Knapp, P. C., 62, 94; ovariotomy for nervous disease, Edes, R. T., 105; glio-sarcoma of the basal ganglia, 117; sub-acute unilateral bulbar palsy, with autopsy, Wiener, A., 118; the pons-medulla flocculus triangle as a tumor site, with pathological findings, Newton, R. S., 418; syringo-myelia, central glioma of the spinal cord, with spontaneous central hæmorrhage, Dana, C. L., 119; a case of infantile cerebral spastic diplegia, Peterson, F., 120; deafness due to a foot-ball injury, Corning, J. L., 120; a case of acromegaly, Parsons, R. L., 120; ergot in the treatment of periodic neuralgias, Thomson, W. H., 121; diphtheritic paralysis, 123; recent observations on the functions of the thyroid gland and the relations of the enlargement to Graves's disease, also remarks on the therapeutic use of sheep's thyroids and of other organic extracts, Putnam, J. J., 153, 168; case of fatal hæmorrhage from the left lateral sinus caused by a blow on the jaw, 201; Pott's paraplegia, Whitman, R., 218; electrical reactions and their value in diagnosis and prognosis, Starr, M. A., 317; a case of progressive muscular atrophy of the perineal type, Jacoby, G. W., 392; a case of neuralgia of the great occipital nerve, with symptoms of a destructive lesion of the cervical sympathetic, Johnson, A. B., 392; a case of hysteria with peculiar epileptoid attacks, Booth, J. A., 393; electrical reactions and their value in diagnosis and prognosis, 393; tapping of the lateral ventricles, Frank, 401; a case of amyotrophic lateral sclerosis, Brown, C. H., 496; a case of progressive muscular dystrophy, Wiener, A., 496; a critical review of the various theories of uræmia, based upon original experimental observations, Herter, C. A., 497; railway spines and surgeons, 523; the influence of infectious processes on the nervous system, pathology and etiology, Putnam, J. J., 591; the therapeutics of infectious processes of the nervous system, Dercum, F. X., 594; cases of traumatic headache, Folsom, C. F., 621, 641; the nervous system in disease and the practice of medicine from a neurological standpoint, Hughes, C. H., 624.
Newell, O. K. The intermittent rapid dilatation of urethral stricture, 389.
Newton, R. S. The pons-medulla flocculus triangle as a tumor-site, with pathological findings, 118; a case of exophthalmic goitre, thyroidectomy, 392.
New York. To abolish the office of coroner in New York, 102.
Nicaragua. A reminiscence of the Nicaraguan filibusters, Lane, L. C., 50.
Nose. The rôle of the nose in Zola, 500.
Note-taking. Clinical note-taking, with a list of four hundred and ninety-one medical cases shown to the third class of the Harvard Medical School, Joslin, E. P., 415.
Nurses. What might be done by the Obstetrical Society to advance the training of nurses, Worcester, A., 436, 450.
Obstetrician. A famous country obstetrician two centuries ago, 374.
Obstetrics. Recent progress in obstetrics, Reynolds, E., 210.
Occupation, Clark, A., 175.
Odors. The influence of odors on the voice, 634.
Opium. Permanganate of potash in opium-poisoning, Pyle, W. L., 502.
Orthopaxy. Recent progress in orthopedic surgery, Bradford, E. H., and Brackett, E. G., 9, 38; a case of club-hand and club-foot, Sayre, R. H., 42; a case of myositis-ossificans with multiple exostoses, Gibney, V. P., 43; the treatment of club-foot by Wolff's method, Shands, A. R., 43; congenital torticollis, Whitman, R., 218; Pott's paraplegia, Whitman, R., 218; persistent psoas contraction, Whitman, R., 219; the Lorenz treatment of hip-disease, Gibney, V. P., 219; excision of the hip, Gibney, V. P., 219; a new operation for the relief or cure of rotary lateral curvature of the spine, Schaffer, 221; exercise in the treatment of lateral curvature, Brackett, E. G., 329, 343; flat-foot, Bradford, E. H., 377.
Out-Patient hospital abuse, 502.
Pancreas. A case of acute hæmorrhagic pancreatitis, Paul, W. E., 8; hæmorrhage into the pancreas as a cause of sudden death, Whitney, W. F., 379, 390.
Parker, W. T. The proposed reduction in the Army Medical Service, 430.
Parsons, R. L. A case of acromegaly, 120.
Paul, W. E. A case of acute hæmorrhagic pancreatitis, 8.
Peckham, F. E. Appendicitis, with apparent resolution of abscess, relapse, death, autopsy, 61; scarlatina with persistent high temperature associated with wild delirium, finally controlled by guaiacol, 517.
Pediatrics. The study of pediatrics, Christopher, W. S., 174.
Pepper, W. Dr. William Pepper's resignation as Provost of the University of Pennsylvania, 424.
Peritonitis. The bacteria of peritonitis, 271; peritonitis due to embolism of the mesenteric artery, Councilman, W. T., 443.

Perkins, J. W. Five cases of cholecystotomy, 87.
Peterson, F. Glio-sarcoma of the basal ganglia, 117; a case of infantile, cerebral, spastic diplegia, 120.
Peterson, F., and others. Discussion on the relation of syphilis to general paresis, 15.
Pezzer. The pathology of bicycling, 197.
Pharmacopœia Changes in the Pharmacopœia, 25.
Phelps, A. M. Excision of the tarsus for caries, 220.
Phosphaturia. Notes on phosphaturia, Thorndike, P., 134, 144.
Phthisis. Weight as a symptom in phthisis, Hall, J. N., 607; the comparative rarity of phthisis in the highlands of Pennsylvania and the adjacent counties of New York, Hinsdale, G., 651.
Pilcher, L. S. Venous tumor of the diploë, 599.
Platt, W. B. Laminectomy eleven months after injury to the spine, 412.
Pneumonia. Observations on pneumonia, Prescott, W. H., 229.
Polk, W. M. Conservative surgery of the female pelvic organs, 573.
Prague. Letter from Prague, Mallory, F. B., 77.
Pregnancy, affections connected with. Right-sided, followed at an interval of two years by left-sided Fallopian pregnancy, with repeated operation, Harrington, F. B., 6; obstetrical asepsis, Price, J., 32, 40; report of two pregnancies following a laparotomy, Chandler, N. F., 93, 98; two cases of pregnancy associated with abdominal distention in the fœtus, Townsend, C. W., 139, 142; a case of puerperal septicæmia, Haven, G., 140, 142; bacteriological cultures from a case of puerperal septicæmia, Morse, J. L., 140, 142; a case of acute infection simulating acute yellow atrophy of the liver in a pregnant woman, autopsy, Crowell, N., 166, 169; three uterine pregnancies during an extra-uterine pregnancy, Francis, G. E., 199; the treatment of pregnancy complicated by heart disease, Sears, G. G., 253, 268; six cases of extra-uterine pregnancy, Johnson, F. W., 256, 265; cases of extra-uterine pregnancy, Elliot, J. W., 260; ectopic gestation, 270; a case of concealed accidental hæmorrhage during the first stage of labor, with recovery of mother under conservative treatment, Reynolds, E., 284; two cases of pulmonary congestion and œdema occurring during pregnancy, Goss, F. W., 336, 341; salivation of pregnancy, Green, C. M., 358; the Leach case, Durell, T. M., 382, 390.
Prescott, W. H. Observations on pneumonia, 229.
Present Generation, 198.
Price, J. Obstetrical asepsis, 32, 40.
Putnam, J. J. Recent observations on the functions of the thyroid gland and the relation of the enlargement to Graves's disease, also remarks on the therapeutic use of sheep's thyroids and of other organic extracts, 153, 168; a case of myxœdema, 190; the influence of infectious processes on the nervous system, pathology and etiology, 591.
Pyle, W. L. Permanganate of potash in opium-poisoning, 502.
Railway Spines and surgeons, 523.
Rattlesnake. The action of rattlesnake venom upon the bactericidal power of the blood-serum, Ewing, C. B., 487.
Raynaud's Disease. A clinical report of two cases of Raynaud's disease, Henry, F. P., 621.
Recent Progress. Orthopedic surgery, Bradford, E. H., and Brackett, E. G., 938; nervous system, Knapp, P. C., 62, 94; obstetrics, Reynolds, E., 210; dermatology, Bowen, J. T., 241, 263; thoracic disease, Sears, G. G., 285; legal medicine, Draper, F. W., 313; public hygiene and preventive medicine, Abbott, S. W., 337; gynæcology, Davenport, F. H., 364; surgery, Burrell, H. L., and Cushing, H. W., 384, 415; anatomy, Dwight, T., 468; mental diseases, Stedman, H. R., 494, 517; therapeutics, Williams, F. H., 543.
Rectum. Malignant disease of the rectum, Gay, G. W., 204, 214.
Reed, B. The relation which alimentation should bear to oxygenation in lung diseases, 629.
Registration. National registration a necessity, Abbott, S. W., 137; a bill to provide for the registration of physicians and surgeons in the State of Massachusetts, 426; "reserving the claim of exemption from registration," 579; a qualified signature to the Registration Law, 635; the Medical Registration Law, 625.
Relaxation as a curative agent, Call, A. P., 334.
Respiratory System. Hypertrophy in the post-nasal space, especially after childhood, Farlow, J. W., 56, 65; a case of pulmonary stenosis in an adult, Everett, O. H., 207; observations on pneumonia, Prescott, W. H., 229; recent progress in thoracic disease, Sears, G. G., 285; two cases of pulmonary congestion and œdema occurring during pregnancy, Goss, F. W., 336, 341; twenty-six cases of intubation of the larynx, Day, F. L., 356; surgical treatment of pulmonary cavities, Dandridge, N. P., 402; the gastric and respiratory symptoms caused by the dust of curled hair, Chadbourne, A. P., 439, 450; the surgical treatment of empyema, Ashhurst, J., Jr., 564; cases of acute pneumonia in children, Morrill, F. G., 541; weight as a symptom in phthisis, Hall, J. N., 607; the treatment of certain symptoms of croupous pneumonia, particularly in adults, Robinson, B., 618; alimentation in pulmonary disease, Smith, A. H., 629; the relation which alimentation should bear to oxygenation in lung diseases, Reed, B., 629; the methods and value of supervised exercise in the prophylaxis of pulmonary phthisis, Butler, G. R., 630; creasote, guaiacol and benzoyl in phthisis, Curtin, R. G., 630; shall anything be done by legal authority to prevent the spread of tuberculosis? Knight, F. G., 630; the comparative rarity of phthisis in the highlands of Pennsylvania and the adjacent counties of New York, Hinsdale, G., 651; some meteorological data of Colorado, Fisk, S. A., 652.
Reynolds, E. A case of concealed accidental hæmorrhage during the first stage of labor, with recovery of mother under conservative treatment, 284.
Richardson, M. H. Specimen of gangrenous and perforated appendix, 67; large diffuse fibroma of the breast, with spot of medullary carcinoma, 143; excision of the elbow-joint, 143; three cases of salpingitis of unusual extent, 159, 169; an appendix obliterated in the greater part of its length, 192; fibroma of breast with large cyst simulating carcinoma, 193; cases of appendicitis presenting unusual features, 232; stricture of the urethra, with specimen, 443.
Robinson, B. Sewer-gas a cause of throat disease, or the effect of bad drainage on the throat, 570; the treatment of certain symptoms of croupous pneumonia, particularly in adults, 618.
Rome. Letters from Rome, Gay, G. W., 428; a few notes on Rome and the late International Medical Congress, 429.
Rush Medical College. "Higher medical education," Ingalls, E. F., 51; four years' course at Rush Medical College, Ingalls, E. F., 103.
Russell, W. Pathology and the scientific mind, 77.
Salpingitis. Three cases of salpingitis of unusual extent, Richardson, M. H., 159, 169.
Samoa. The first epidemic of measles in Samoa, Davis, S. H., 605.
San Francisco. Letters from San Francisco, 635, 657.
Sanitary Insurance, a scheme, 170.
Sayre, R. H. A case of club-hand and club-foot, 42.
Scabies. The prevalence and recognition of scabies, Bowen, J. T., 127.
Scarlatina. The microbe of scarlatina, 73; scarlatina with persistent high temperature associated with wild delirium, finally controlled by guaiacol, Peckham, F. E., 517.
Scarlet Fever. The use of antipyretic methods in the treatment of scarlet fever, Carslaw, John, 373; the conveyance of scarlet fever and diphtheria by public carriages, 576.
Schools. Contagious diseases in the public schools, 23.
Schott Method. A report of cases of chronic heart disease treated by the Schott method of baths and gymnastics, Babcock, R. H., 651.
Scudder, C. L. Cases of abdominal surgery occurring in the practice of Dr. J. Collins Warren at the Massachusetts General Hospital during the winter of 1893, 1, 29; surgical cases, 645.
Sears, G. G. The treatment of pregnancy complicated by heart disease, 253, 268; recent progress in thoracic disease, 285.
Sea-Sickness. The treatment of sea-sickness, Charteris, 454.
Self-mutilation in China, 76.
"Sending patients away from home," Hall, J. N., 27.
Sewage system in Fitchburg, 425.
Sewers. Chemical, physical and bacteriological studies of air over decomposing surfaces, with especial reference to their application to the air of sewers, Abbott, A. C., 569; the effect of sewer-gas in the production of disease, Jacobi, A., 570; sewer-gas as a cause of throat disease, or the effect of bad drainage on the throat, Robinson, B., 570.
Shaffer. A new operation for the relief or cure of rotary lateral curvature of the spine, 221.
Shands, A. B. The treatment of club-foot by Wolff's method, 43.
Shattuck, F. C. Four cases of myxœdema treated by thyroid extract, 177, 191; the frequency of renal albuminuria, as shown by albumin and casts, apart from Bright's disease, fever or obvious cause of renal irritation, 613.
Shoes. Infantry footwear, 478.
Simpson. Sir James Simpson's early experiments with chloroform, 103.
Sinclair, A. D. A note on the use of ichthyol, 141, 142.
Skulls. Muñiz collection of skulls, 402.
Sleep. The new rational way to sleep, Fischer, W., 126.
Small-Pox. The treatment of small-pox by non-admittance of the chemical rays of light, Hogner, R., 35; a personal experience with small-pox, White, H. W., 91; the contagium vivum of vaccine and of small-pox, 145; the experience of two women physicians with small-pox, 148; the diagnosis of small-pox, 275; variola, Webber, S. G., 457, 490.
Smith, A. H. Alimentation in pulmonary disease, 629.
Smith, T. Modification, temporary and permanent, of the physiological character of bacteria in mixed cultures, 647.
Societies. American Climatological Association, 629, 650; American Medical Association, 275, 327, 503, 553, 623, 635, 657; American Surgical Association, 564, 595; American Laryngological Society, 556; Association of American Anatomists, 622; Association of American Physicians, 618, 647; Boston Society for Medical Improvement, 142, 190, 244, 341, 442, 470, 520; California State Medical Society, 481; Cambridge Society for Medical Improvement, 367; Congress of American Physicians and Surgeons, 567, 575, 589; International Medical Congress, 76, 371, 422, 428, 429; International Sanitary Conference, 274; Massachusetts Medical Society, 217, 625, 628; Massachusetts Medico-Legal Society, 390; New York Academy of Medicine, 42, 218; New York County Medical Association, 68; New York Neurological Society, 15, 117, 317, 391, 496; Obstetrical Society of Boston, 97, 142, 169, 265, 289, 419, 436, 450; Pennsylvania, the Medical Society of the State of, 227, 600; Suffolk District Medical Society, 11, 40, 108, 268, 292, 315, 388, 447.
Spermatorrhœa. On spermatorrhœa and incipient hypertrophy of the prostate and a proposed method for its treatment, Hogner, R., 239.
Spine. Laminectomy for tuberculous disease of the spine, Beck, C., 220; a new operation for the relief or cure of rotary lateral curvature of the spine, Shaffer, 221; laminectomy eleven months after injury to the spine, Platt, W. B., 412.
Splints. Remarks on surgical splinting, Tracy, E. A., 361.
Standish, M. Two cases of chancre of the eyelid, with an account of the manner of infection, 237, 244.
Starr, M. A. Electrical reactions and their value in diagnosis and prognosis, 317.
Stedman, H. R. Report on mental diseases, 494, 517.
Sternberg, G. M. The bacteriology of nephritis, 573.
St. Louis and its medical schools, Chaplin, W. S., 634.
Stokvis. The over-zealous therapeutician, 526.
Stricture. The intermittent rapid dilatation of urethral stricture, Newell, O. K., 389.
Suicide in New York, 224.
Sundberg, J. C. A sanitary sermon in diagram (Bagdad), 77.
Sunshine and microbes, 603.
Surgeons. Acting assistant surgeons, 226.
Surgery. Lectures on surgery, Cheever, D. W., 81, 129; recent progress in surgery, Burrell, H. L., and Cushing, H. W., 384, 415; methods of teaching surgery, Billings, J. S., 535; the teaching of surgery, Chiene, J., 595; surgical cases, Scudder, C. L., 645.
Swift. Cancer of the cervix, 367.
Symptomatic treatment of disease, West, S., 551.
Syphilis. Discussion on the relation of syphilis to general paresis, Peterson, F., and others, 15.
Tait, L. Mr. Lawson Tait's use of anæsthetics, 250.
Tarsus. Excision of the tarsus for caries, Phelps, A. M., 220.
Temperature. Sensible temperatures, Harrington, M. W., 652.

Thomas, T. G. The immediate causation of the diseases peculiar to women, 68.
Thompson. Perforation of the heart, with continuance of life for thirteen hours, 350.
Thompson, W. G. Notes on the observation of malarial organisms in connection with enteric fever, Thompson, W. G., 648.
Thomson, W. H. Ergot in the treatment of periodic neuralgias, 121; a classification for infectious diseases, 551.
Thorndike, C. W. Two cases of hydramnion associated with abdominal distention in the fœtus, 139, 142.
Thorndike, P. Notes on phosphaturia, 134, 144.
Thyroid. Recent observations on the functions of t e thyroid gland and the relation of the enlargement to Graves's disease, also remarks on the therapeutic use of sheep's thyroids and of other organic extracts, Putnam, J. J., 153, 168; a case of myxœdema treated by thyroid extract, Cowles, W. N., 167, 168; four cases of myxœdema treated by thyroid extract, Shattuck, F. C., 177, 191; a case of exophthalmic goitre, thyroidectomy, Booth, J. A., 391; a case of exophthalmic goitre, thyroidectomy, Newton, R. S., 392.
Tiffany, J. McL. The surgery of the kidney, 595.
Townsend, C. W. Primary nasal diphtheria, 513, 520.
Tracy, G. A. Remarks on surgical splinting, 361.
Tuberculosis. The prevention of tuberculosis, Vickery, H. F., 5, 11; a case of tuberculous pericarditis with enormous effusion, general tuberculosis, autopsy, Bates, E. A., 7; the registration and preventive measures against tuberculosis, 322; the treatment of pulmonary tuberculosis by the subcutaneous use of the chloride of gold and sodium with the iodide of manganese, Boardman, W. S., 492.
Tyndall, J. Professor Tyndall and Boston resources, 250.
Tyndall, Professor, 427.
Typhoid Fever. Second attacks of typhoid fever in adults, two cases, Mason, A. L., 180; two attacks of typhoid fever in the same person, 402; a treatment of typhoid fever, Fisk, S. A., 620; notes on the observation of malarial organisms in connection with enteric fever, Thompson, W. G., 648.
Unemployed medical men, 451.
Urinary System. Notes on phosphaturia, Thorndike, P., 134, 144; two cases of litholapaxy, Allen, G. W., 383, 388; the intermittent rapid dilatation of urethral stricture, Newell, O. K., 389; stricture of the urethra, with specimen, Richardson, M. H., 443; the effect of ether and chloroform on the kidneys, Wunderlich, 477; urinary diagnosis, Wood, E. S., 484, 505; crystalline deposits in the urine, their causation and relation to renal diseases, Greene, E. M., 538, 560, 564; nephritis in its surgical aspects, Keyes, E. L., 572; the bacteriology of nephritis, Sternberg, G. M., 573; the surgery of the kidney, Tiffany, J. McL., 595; the surgical treatment of surgical kidney, Weir, R. F., 596; surgery of the ureters, Fenger, C., 596; discussion on renal and ureteral surgery, 597; the removal of stone in the bladder, with the presentation of a new lithotrite, Forbes, W. S., 600; the frequency of renal albuminuria, as shown by albumin and casts, apart from Bright's disease, fever or obvious cause of renal irritation, Shattuck, F. C., 613.
Vaccination. Vaccination and re-vaccination, 21; some vaccination statistics, 26; vaccination in ancient times, 50; avoidable results and essential precautions in vaccination, 99; the contagium vivum of vaccine and of small-pox, 145; a bill relative to vaccination, 226; anti-vaccination, 346; vaccina ion in the Japanese navy, 401; compulsory vaccination, 524.
Vaccine Virus. The production of vaccine virus, Gilbert, D. D., 434, 447; Martin, F. C., 479.
Vaccinia, Dr. S. C. Martin's researches on the bacteria of vaccinia, Ernst, H. C., 622.
Variola, Webber, S. G., 457, 490.
Vermiform Appendix, Hayes, M. C., 175.
Vickery, H. F. The prevention of tuberculosis, 5, 11.
Virus. The production of vaccine virus, Gilbert, D. D., 434, 447; Martin, F. C., 479.
Vital Statistics of England for 1893, 399.
Warren, J. C. Cases of abdominal surgery occurring in the practice of Dr. J. Collins Warren at the Massachusetts General Hospital during the winter of 1893, Scudder, C. L., 1, 29; tumors of the breast, 643.
Wasps. Drunkenness in wasps, 49.
Waughop, P. R. Saturated solution of potassium permanganate in the treatment of chronic ulcer, 467.
Webber, S. G. Variola, 457, 490.
Weber, L. Some pathological conditions of the heart and their relation to diabetic coma, 650.
Weight as a symptom in phthisis, Hall, J. N., 607.
Weir, R. F. The surgical treatment of surgical kidney, 596.
